

HOW DO WE CHANGE OVER TIME?

Curriculum Content: children will learn and discover how they have changed over their lifetime. They will learn the timelines of growth with other plants and animals linked with their own experiences and observations.

Support your child to learn key vocabulary from the project and encourage them to link their phonics knowledge to the word by saying the initial sound.

BABY ANIMALS

NATURE WALK

Find some long wavy grass to walk through in welly boots.

Collect

Collect the sounds of the birds by recording the audio onto your tablet or phone.

Garden Jobs

Look at ways you can recycle your water to use in the garden.

RECIPES TO TRY

Make sunshine lollies with carrot and oranges!

Ingredients

Carrots – 5 (large)
Juice of 3 oranges

How to Make

1. Grate the carrots and then transfer them to a clean tea towel.
2. Fold the towel and squash the grated carrots to extract their juice.
3. Collect the carrot juice in a jug after removing the pulp. Add orange juice to it. Sprinkle some orange zest if you like.
4. Pour into ice cream moulds and freeze it overnight.
